

1 (September 8, 2020)
2 Reamers and drills shall be directed mechanically, non hand-held, except as
3 otherwise noted. The Contractor may ream and drill holes through *** \$\$1\$\$
4 *** of Bridge No(s) *** \$\$2\$\$ *** using hand-held reamers and drills, provided
5 that the method and equipment used conforms to the erection plan as
6 accepted by the Engineer in accordance with Section 6-03.3(7)A as
7 supplemented in these Special Provisions. Unless otherwise shown in the
8 Plans, all holes reamed and drilled for bolted connections with existing gusset
9 plates and steel members shall be 1/16 inch larger than the bolt diameter
10 specified in the Plans for the connection.
