

1                   **(November 20, 2023)**  
2                   **Bridge Railing Type Snow Fence and Bridge Railing Type Wire Fabric Fence**  
3                   The railing shall be fabricated and installed in accordance with the shop drawings.  
4                   The railing panels shall be installed parallel to the top of the associated concrete  
5                   surface and the railing posts shall be installed perpendicular to the associated  
6                   concrete surface.  
7  
8                   The Contractor shall install anchor bolts for each post anchorage as shown in the  
9                   Plans. Alternatively, the Contractor may install resin bonded anchors at each post  
10                  anchorage, in accordance with Section 6-02.3(18)A and Section 9-06.4.  
11  
12                  After completing erection, the Contractor shall repair all metal surfaces with  
13                  damaged paint or powder coatings and exposed metal with a field repair coating in  
14                  accordance with Section 6-07.3(9)I and Section 6-07.3(11)A (for paint) or Section 6-  
15                  07.3(11)B (for powder coating). The color of the finish coat of the field repair  
16                  coating, when dry, shall match the color specified in Section 6-06.2.
