

1 **(August 6, 2018)**
2 **Environmental Compliance**

3 **Description**

4 It is the Contractor's responsibility to conduct and perform all Work in accordance with
5 Environmental Regulations, Environmental Commitments, permits, and Plans that the Work
6 is subject to. The Environmental Compliance Lead (ECL) shall be the Contractor's
7 representative that is responsible for management of the Contractor's environmental
8 compliance.
9

10 **Construction Requirements**

11 ***Environmental Compliance Lead (ECL)***

12 The Contractor shall designate a primary ECL and an alternate ECL to perform the
13 duties of the ECL. The Contractor shall provide the Engineer with a copy of the formal
14 assignment in writing prior to the start of construction. The Contractor's superintendent
15 and/or foreman cannot be designated as the primary or alternate ECL.
16

17 The ECL shall represent all Contractor work actions for the project, regardless of
18 whether the work is performed by the Contractor or one of the subcontractors. The ECL
19 shall have the authority to direct work to expeditiously correct any environmental
20 compliance deficiency and coordinate these measures with the Engineer, and to order
21 the Contractor's on-site personnel to stop work that is not being performed in
22 compliance with the permits.
23

24 The ECL shall be on-site during all work activities unless otherwise approved by the
25 Engineer. The Contractor shall maintain 24-hour telephone numbers at which the
26 Contractor's designated ECL can be contacted and be available upon the Engineer's
27 request during other than normal working hours. ECL and alternate(s) shall be listed on
28 the Emergency Contact List required under Section 1-05.13(1).
29

30 The ECLs shall have, for the life of the Contract, a current Certificate of Training in
31 Construction Site Erosion and Sediment Control (CESCL) from a course approved by
32 the Washington State Department of Ecology.
33

34 The primary responsibilities of the ECL are to assist the Contractor's superintendent in
35 planning and scheduling work activities to achieve environmental compliance; and be
36 present on-site to observe work activities and resolve environmental compliance issues
37 as they may develop.
38

39 The duties of the ECL shall also include the following requirements:
40

- 41 • Erosion and Sediment Control (ESC) Lead, Section 8-01.3(1)B,
- 42 • Updating the Spill Prevention, Control and Countermeasures Plan, Section 1-
43 07.15(1),
- 44 • Attending the preconstruction conference (ECL and alternates),
- 45 • Evaluation of the Contractor's work operations and schedule in regard to
46 environmental risks,
- 47 • Providing advanced notification to the Engineer of work activities that may
48 create environmental compliance concerns.
49

50 **Payment**

51 Payment will be made for each of the following Bid items that are included in the Proposal:

1
2
3
4
5
6

“Environmental Compliance Lead”, lump sum.
The lump sum Contract price for “Environmental Compliance Lead” shall be full payment for all costs for the Work. When the proposal includes an item for Environmental Compliance Lead all costs for ESC Lead in Section 8-01 shall be included in the lump sum price.
