Chapter 1 Administration

1-1 General Information ................................................................. 1-1
  1-1.1 Purpose and Scope of Manual ........................................... 1-1
  1-1.2 Definition of Terms ...................................................... 1-1
  1-1.3 WSDOT State Construction Office .................................... 1-1
  1-1.4 Materials ................................................................. 1-4
  1-1.5 Region Organization ..................................................... 1-4
  1-1.6 Relationship With Other Agencies ................................... 1-7
  1-1.7 Relating to the Public .................................................. 1-9
  1-1.8 Safety ................................................................. 1-9
  1-1.9 Archaeological and Historical Objects ............................... 1-11
  1-1.10 Construction Work in International Boundary Strip ............. 1-11

1-2 Contract Administration ....................................................... 1-11
  1-2.1 Proposal and Award of Contract ....................................... 1-11
  1-2.2 Project Engineer’s Relationship and Responsibilities ........... 1-19
  1-2.3 Construction Traffic Control ......................................... 1-39
  1-2.5 Contract Time .......................................................... 1-100
  1-2.6 Enforcement of Wage Rate Requirements ............................. 1-114
  1-2.7 EEO, D/M/WBE, and Training ......................................... 1-122
  1-2.8 Control of Work ........................................................ 1-135

1-3 Estimates and Records ......................................................... 1-140
  1-3.1 Estimates .............................................................. 1-140
  1-3.2 Final Records for Projects Constructed by Contract .............. 1-154
  1-3.3 Disputes and Claims .................................................. 1-155
  1-3.4 Stewardship ............................................................ 1-158

1-4 Utility and Railroad Relocation ............................................. 1-163
  1-4.1 Work Performed Under Utility Agreements .......................... 1-163
  1-4.2 Work Performed Under Railroad Agreements ....................... 1-164

1-5 Surveying ................................................................. 1-165
  1-5.1 Site Surveying .......................................................... 1-165
  1-5.2 Construction Surveying ................................................. 1-166

1-6 Inspection of Course Thicknesses .......................................... 1-167
# Chapter 2 Earthwork

2-1 Clearing, Grubbing, and Roadside Cleanup .................................................. 2-1
   2-1.1 Clearing ........................................................................................................ 2-1
   2-1.2 Grubbing ..................................................................................................... 2-2
   2-1.3 Clearing and Grubbing – Combined .............................................................. 2-2
   2-1.4 Roadside Cleanup ......................................................................................... 2-2
2-2 Removal of Structures and Obstructions ............................................................. 2-3
   2-2.1 General Instructions ..................................................................................... 2-3
   2-2.2 Measurement and Payment ......................................................................... 2-3
2-3 Roadway Excavation and Embankment ............................................................. 2-3
   2-3.1 Roadway Excavation ................................................................................. 2-3
   2-3.2 Embankment Construction ........................................................................ 2-10
   2-3.3 Borrow Pits ................................................................................................. 2-16
   2-3.4 Temporary Water Pollution/Erosion Control .............................................. 2-17
   2-3.5 Measurement and Payment ......................................................................... 2-20
2-4 Haul ..................................................................................................................... 2-21
   2-4.1 General Instructions ..................................................................................... 2-21
   2-4.2 Vacant .......................................................................................................... 2-21
   2-4.3 Haul on Borrow or Waste .......................................................................... 2-21
2-5 Slope Treatment .................................................................................................. 2-22
   2-5.1 General Instructions ..................................................................................... 2-22
   2-5.2 Measurement and Payment ......................................................................... 2-22
2-6 Subgrade Preparation ......................................................................................... 2-22
   2-6.1 General Instructions ..................................................................................... 2-22
   2-6.2 Measurement and Payment ......................................................................... 2-22
2-7 Watering .............................................................................................................. 2-22
   2-7.1 General Instructions ..................................................................................... 2-22
   2-7.2 Measurement and Payment ......................................................................... 2-23
2-8 Vacant .................................................................................................................. 2-23
2-9 Structure Excavation .......................................................................................... 2-23
   2-9.1 General Instructions ..................................................................................... 2-23
   2-9.2 Measurement and Payment ......................................................................... 2-27
2-10 Ditch and Channel Excavation ......................................................................... 2-27
   2-10.1 General Instructions .................................................................................... 2-27
   2-10.2 Measurement and Payment ........................................................................ 2-27
2-11 Trimming and Cleanup .................................................................................... 2-27
   2-11.1 General Instructions .................................................................................... 2-27
   2-11.2 Measurement and Payment ........................................................................ 2-27
2-12 Construction Geotextile ................................................................................... 2-27
   2-12.1 General Instructions .................................................................................... 2-27
   2-12.2 Placement ................................................................................................... 2-28
   2-12.3 Measurement and Payment ........................................................................ 2-28
# Chapter 3 Production From Quarry and Pit Sites and Stockpiling

3-1 Production  
3-1.1 General Instructions
3-1.2 Preparation of Pit or Quarry
3-1.3 Sampling and Testing
3-1.4 Pit Operations
3-1.5 Outline of Inspector's Duties
3-1.6 WSDOT Furnished Material Sources
3-1.7 Pit Evaluation Report
3-1.8 Contractor Furnished Material Sources
3-1.9 Measurement and Payment

3-2 Stockpiling
3-2.1 General Instructions
3-2.2 Measurement and Payment

3-3 Site Reclamation
3-3.1 General
3-3.2 Contractor Furnished Sources
3-3.3 WSDOT Furnished Sources
3-3.4 Reclamation of Stockpile and Waste Sites

# Chapter 4 Bases

4-1 Gravel Base
4-1.1 General Instructions
4-1.2 Substitution of Gravel Borrow for Gravel Base

4-2 Ballast and Crushed Surfacing
4-2.1 General Instructions
4-2.2 Loading, Hauling, and Spreading
4-2.3 Compaction
4-2.4 Maintenance of Surfacing
4-2.5 Keystone
4-2.6 Inspector’s Checklist
4-2.7 Measurement of Quantities

4-3 Vacant
Chapter 5  Surface Treatments and Pavements  
5-1  Cement Concrete Pavement Rehabilitation  
5-1.1  General Instructions  
5-1.2  Replacement of Portland Cement Concrete Panels  
5-1.3  Partial Depth Spall Repair  
5-1.4  Dowel Bar Retrofits  
5-1.5  Sealing Existing Random Cracks, Transverse Joints, and Longitudinal Joints  
5-1.6  PCCP Grinding  
5-2  Bituminous Surface Treatment  
5-2.1  General Instructions  
5-2.2  Duties Before Construction  
5-2.3  Inspection of Bituminous Surface Treatment on New Construction  
5-2.4  Inspection of Bituminous Surface Treatment Seal Coats  
5-2.5  Inspection and Sampling of Materials  
5-2.6  Miscellaneous Inspection Duties  
5-2.7  Reports and Records  
5-3  Vacant  
5-4  Hot Mix Asphalt  
5-4.1  General Instructions  
5-4.2  Inspector Roles and Responsibilities  
5-4.3  Mix Design  
5-5  Cement Concrete Pavement  
5-5.1  General Instructions  
5-5.2  Pre-Pave  
5-5.3  Paving  
5-5.4  Post Paving  
5-5.5  Stationary Side Forms  
5-5.6  Testing Equipment/Reports  
5-5.7  Checklists  

Chapter 6  Structures  
6-01  General Requirements for Structures  
GEN6-01.1  Bridge Construction De-Briefing Session  
GEN6-01.2  General Inspection Procedures  
GEN6-01.3  Approval of Materials  
GEN6-01.4  Safety Nets and Staging  
SS6-01.2  Foundations  
SS6-01.3  Clearing the Site  
SS6-01.4  Appearance of Structures  
SS6-01.5  Load Restrictions on Bridges Under Construction  
SS6-01.9  Working Drawings  
SS6-01.12  Final Cleanup  
6-02  Concrete Structures  
GEN6-02.1  Use of Epoxy Resins  
SS6-02.3  Construction Requirements  
SS6-02.4/5  Measurement and Payment
