Contents

Chapter 1  Geotechnical Operations and Administration ........................................ 1-1
  1.1  Scope of Geotechnical Design, Construction, and Maintenance Support .......... 1-1
  1.2  Role of Offices Providing In-House Geotechnical Design, Construction, and
       Maintenance Support ........................................................................ 1-3
  1.3  Geotechnical Support within the WSDOT Project Management Process (PMP) . 1-10
  1.4  Geotechnical Report Review Process, Certification and Approval Requirements .. 1-14
  1.5  Reports Produced by Consultants or other Agencies for WSDOT ................... 1-18
  1.6  Geotechnical Consultant Administration ................................................ 1-19
  1.7  Geotechnical Information Provided to Bidders ........................................... 1-21
  1.8  Sample Retention and Chain of Custody .................................................. 1-23
  1.9  Geotechnical Design Policies and their Basis ............................................ 1-23
  1.10 Geotechnical Construction Support Policies .............................................. 1-25
  1.11 Geotechnical Construction Submittal Review Policies ............................... 1-27
  1.12 References ......................................................................................... 1-29

Appendix 1-A  Preliminary Geotechnical Engineering Services Scope of Work ........ 1-A-1
Appendix 1-B  Geotechnical Engineering Services Scope of Work for PS&E-Level Design 1-B-1

Chapter 2  Project Geotechnical Planning .............................................................. 2-1
  2.1  Overview .......................................................................................... 2-1
  2.2  Preliminary Project Planning ................................................................. 2-1
  2.3  Development of the Subsurface Exploration Plan ...................................... 2-8
  2.4  Development of the Laboratory Testing Plan .......................................... 2-15
  2.5  References ......................................................................................... 2-16

Appendix 2-A  Field Exploration Request Form ................................................ 2-A-1

Chapter 3  Field Investigation .............................................................................. 3-1
  3.1  Overview .......................................................................................... 3-1
  3.2  Activities and Policies – Before Exploration ............................................. 3-1
  3.3  Activities and Policies – During Exploration ............................................ 3-3
  3.4  Activities and Policies – After Exploration ............................................. 3-6
  3.5  Standard Penetration Test (SPT) Calibration ............................................ 3-6
  3.6  References ......................................................................................... 3-6

Appendix 3-A  Daily Drill Report Form .............................................................. 3-A-1
Appendix 3-B  Portable Penetrometer Test Procedures ....................................... 3-B-1
Appendix 3-C  Field Investigation Best Management Practices for Erosion and
       Spill Prevention .................................................................................. 3-C-1
Appendix 3-D  Department of Natural Resources Memorandum of Understanding:
       Drilling Operations – State Owned Aquatic Lands .................................. 3-D-1
Appendix 3-E  Geotechnical Field Investigation and Contaminated Drilling Waste
       Management Procedures ..................................................................... 3-E-1
Appendix 3-F  State Materials Laboratory Sample-Handling Policy for Contaminated
       and Potentially Contaminated Samples ................................................. 3-F-1
# Contents

## Chapter 8  Foundation Design
- 8.1 Overview ........................................................................... 8-1
- 8.2 Overall Design Process for Structure Foundations .................. 8-1
- 8.3 Data Needed for Foundation Design ....................................... 8-5
- 8.4 Foundation Selection Considerations ..................................... 8-9
- 8.5 Overview of LRFD for Foundations ....................................... 8-10
- 8.6 LRFD Loads, Load Groups and Limit States to be Considered ...... 8-11
- 8.7 Resistance Factors for Foundation Design – Design Parameters ... 8-18
- 8.8 Resistance Factors for Foundation Design – Service Limit States ... 8-19
- 8.9 Resistance Factors for Foundation Design – Strength Limit States ... 8-19
- 8.10 Resistance Factors for Foundation Design – Extreme Event Limit States ... 8-19
- 8.11 Spread Footing Design .......................................................... 8-20
- 8.12 Driven Pile Foundation Design ............................................ 8-27
- 8.13 Drilled Shaft Foundation Design ........................................... 8-41
- 8.14 Micropiles ........................................................................... 8-46
- 8.15 Proprietary Foundation Systems .......................................... 8-46
- 8.16 Detention Vaults .................................................................. 8-46
- 8.17 References ........................................................................... 8-48

### Appendix 8-A  Approved Proprietary Foundation Systems (Vacant) ........ 8-A-1

### Appendix 8-B  Approved AASHTO LRFD Bridge Design Specifications Drill Shaft Design Provisions ........................................... 8-B-1

## Chapter 9  Embankments
- 9.1 Overview and Data Needed .................................................. 9-1
- 9.2 Design Considerations .......................................................... 9-6
- 9.3 Stability Mitigation ............................................................... 9-15
- 9.4 Settlement Mitigation ............................................................ 9-28
- 9.5 Construction Considerations and PS&E Development ............... 9-30
- 9.6 References ........................................................................... 9-38

### Appendix 9-A  Examples Illustrating Staged Fill Construction Design .......... 9-A-1

## Chapter 10  Soil Cut Design
- 10.1 Overview and Data Acquisition ............................................ 10-1
- 10.2 Overall Design Considerations ............................................. 10-5
- 10.3 Soil Cut Design .................................................................... 10-6
- 10.4 Use of Excavated Materials .................................................. 10-11
- 10.5 Special Considerations for Loess ........................................... 10-12
- 10.6 PS&E Considerations ............................................................ 10-19
- 10.7 References ........................................................................... 10-20

### Appendix 10-A  Washington State Department of Transportation Loess Slope Design Checklist ................................................... 10-A-1
Chapter 11 Ground Improvement ............................................................. 11-1
11.1 Overview .................................................................................. 11-1
11.2 Development of Design Parameters and Other Input Data for Ground Improvement Analysis ........................................................................ 11-2
11.3 Design Requirements .................................................................. 11-3
11.4 References .................................................................................. 11-3

Chapter 12 Rock Cut Design ............................................................... 12-1
12.1 Overview .................................................................................. 12-1
12.2 Development of Design Parameters and Other Input Data for Rock Cut Stability Analysis ........................................................................ 12-1
12.3 Design Requirements .................................................................. 12-1
12.4 References .................................................................................. 12-1

Chapter 13 Landslide Analysis and Mitigation ................................. 13-1
13.1 Overview .................................................................................. 13-1
13.2 Development of Design Parameters and Other Input Data for Landslide Analysis ........................................................................ 13-1
13.3 Design Requirements .................................................................. 13-1
13.4 References .................................................................................. 13-1

Chapter 14 Unstable Rockslope Analysis and Mitigation .................... 14-1
14.1 Overview .................................................................................. 14-1
14.2 Development of Design Parameters and Other Input Data for Unstable Rockslope Analysis ........................................................................ 14-1
14.3 Design Requirements .................................................................. 14-1
14.4 References .................................................................................. 14-1

Chapter 15 Abutments, Retaining Walls, and Reinforced Slopes ........ 15-1
15.1 Introduction and Design Standards ............................................. 15-1
15.2 Overview of Wall Classifications and Design Process for Walls ........................................................................ 15-2
15.3 Required Information .................................................................. 15-3
15.4 General Design Requirements .................................................... 15-12
15.5 Wall Type Specific Design Requirements .................................... 15-22
15.6 Standard Plan Walls .................................................................. 15-62
15.7 Temporary Cut Slopes and Shoring ............................................. 15-63
15.8 References .................................................................................. 15-75

Appendix 15-A Preapproved Proprietary Wall and Reinforced Slope General Design Requirements and Responsibilities ........................................ 15-A-1
Appendix 15-B Preapproved Proprietary Wall/Reinforced Slope Design and Construction Review Checklist ........................................................................ 15-B-1
Appendix 15-C Wall/Reinforced Slope Systems Evaluation: Submittal Requirements ........................................................................ 15-C-1
Appendix 15-D Preapproved Proprietary Wall Systems ....................... 15-D-1
Appendix 15-E Description of Typical Temporary Shoring Systems and Selection Considerations ........................................................................ 15-E-1
Appendix 15-F Preapproved Wall Appendix: Specific Requirements and Details for LB Foster Retained Earth Concrete Panel Walls ........................................................................ 15-F-1
Appendix 15-G Preapproved Wall Appendix: Specific Requirements and Details for Eureka Reinforced Soil Concrete Panel Walls ........................................................................ 15-G-1
Appendix 15-H Preapproved Wall Appendix: Specific Requirements and Details for Hilfiker Welded Wire Faced Walls
Appendix 15-I Preapproved Wall Appendix: Specific Requirements and Details for KeySystem I Walls
Appendix 15-J Preapproved Wall Appendix: Specific Requirements and Details for Tensar MESA Walls
Appendix 15-K Preapproved Wall Appendix: Specific Requirements and Details for T-WALL® (The Neel Company)
Appendix 15-L Preapproved Wall Appendix: Specific Requirements and Details for Reinforced Earth (RECO) Concrete Panel Walls
Appendix 15-M Preapproved Wall Appendix: Specific Requirements and Details for Tensar ARES Walls
Appendix 15-N Preapproved Wall Appendix: Specific Requirements and Details for Nelson Walls
Appendix 15-O Preapproved Wall Appendix: Specific Requirements and Details for Tensar Welded Wire Form Walls
Appendix 15-P Preapproved Wall Appendix: Specific Requirements and Details for Lock and Load Walls
Appendix 15-Q Preapproved Wall Appendix: Specific Requirements and Details for SSL Concrete Panel Walls
Appendix 15-R Preapproved Wall Appendix: Specific Requirements and Details for Landmark Reinforced Soil Wall
Appendix 15-S Preapproved Wall Appendix: Specific Requirements and Details for Allan Block Walls With Face Batter of 3 Degrees or More.

Chapter 16 Geosynthetic Design
16.1 Overview
16.2 Development of Design Parameters for Geosynthetic Application
16.3 Design Requirements
16.4 References

Chapter 17 Foundation Design for Signals, Signs, Noise Barriers, Culverts, and Buildings
17.1 General
17.2 Foundation Design Requirements for Cantilever Signals, Strain Poles, Cantilever Signs, Sign Bridges, and Luminaires - General
17.3 Noise Barriers
17.4 Culverts
17.5 Buildings
17.6 References

Chapter 18 Geotechnical Design for Marine Structure Foundations
18.1 Overview
18.2 Design Philosophy
18.3 Load and Resistance Factors for Marine Structures Subject to Ship Impact
18.4 References
