DEPARTMENT OF TRANSPORTATION

Federal Highway Administration and Federal Transit Administration

Environmental Impact Statement; King County, Washington

AGENCIES: Federal Highway Administration (FHWA) and Federal Transit Administration (FTA), Department of Transportation.

ACTION: Notice of intent.

SUMMARY: The FHWA and FTA, in cooperation with Sound Transit (ST) and Washington State Department of Transportation (WSDOT) are issuing this notice to advise the public, affected Indian tribes and agencies that an environmental impact statement (EIS) will be prepared for improvements within the SR 520 corridor from Seattle to Redmond in King County, Washington. High capacity transit (HCT) alternatives across Lake Washington, including the SR 520 and I-90 corridors, will also be considered at a programmatic level.

FOR FURTHER INFORMATION CONTACT: James A. Leonard, Federal Highway Administration, 711 South Capitol Way, Suite 501, Olympia, Washington 98501-1284, Telephone: (360) 753-9408; Jennifer Bowman, Federal Transit Administration, 915 2nd Avenue, Seattle, Washington 98174, Telephone: (206) 220-7954; Rob Fellows,

Washington State Department of Transportation, Office of Urban Mobility, 401 Second Avenue South, Suite 301, Seattle, Washington 98104-2887, Telephone (206) 464-6234; Barb Gilliland, Sound Transit, 401 S. Jackson Street, Seattle, Washington 98104-2826, Telephone (206) 398-5051; or see website at <http://www.wsdot.wa.gov/translake>

SUPPLEMENTARY INFORMATION: The purpose of the proposed action is to improve mobility for people and goods across Lake Washington within the SR 520 corridor from Seattle to Redmond to address the following needs in the corridor. Land uses and transportation systems are not integrated in their planning and implementation; the transportation system suffers from extensive congestion; reliability and safety of the system are impaired; and neighborhoods, business centers and the environment are negatively impacted by high traffic volumes.

Alternatives under initial consideration include: (1) No action; (2) maintain SR 520 as four lanes, but improve access, operation, and safety; (3) add one HOV lane in each direction; (4) add one HOV lane and high-capacity transit in each direction; (5) add one HOV lane and one general purpose lane in each direction; and (6) add one HOV lane, high-capacity transit, and one general purpose lane in each direction. Each "build" alternative will also include Transportation System Management (TSM) measures, Transportation Demand Management (TDM) measures, bicycle and pedestrian facilities, and environmental and neighborhood mitigation and enhancement measures. HCT alternatives across Lake Washington,

including the SR 520 and I-90 corridors, will also be considered at a programmatic level.

Letters describing the proposed action and soliciting comments on the scope of the EIS will be sent to appropriate Federal, State, and local agencies, affected Indian tribes, and to organizations and citizens who have previously expressed or are known to have interest in this proposal. A public hearing will be held and notice will be given of the time and place of the hearing. A series of agency and public scoping meetings are scheduled to be held during July 2000. (See below for details.)

Each public scoping meeting will consist of an informal open house setting from 5-7 p.m. and a formal meeting format beginning at 7 p.m. The formal meeting will begin with a short presentation, after which, comments will be received in the group forum. A court reporter will be available to record oral comments in an informal one-on-one setting, for the open house, and will also record the formal meeting and comments from individuals in the group setting.

Comments may be made at one of the following public scoping meetings.

- Tuesday, July 18, 2000 at the Museum of History and Industry, 2700 24th Ave. East, Seattle, WA
- Wednesday, July 19, 2000 at Medina Elementary School, 8001 NE 8th Street, Medina, WA
- Thursday, July 20, 2000 at North Bellevue Community/Senior Center, 4063 148th Avenue NE, Bellevue, WA

In addition, a scoping meeting for governmental agencies and tribes will be held on July 12, 2000 at 9 a.m. at the Museum of History and Industry, 2700 24th Ave. East, Seattle, WA. A second

agency scoping meeting will be held on July 26, 2000 at 9 a.m. at the WSDOT Office of Urban Mobility, 401 Second Avenue S., Suite 300, Seattle, WA.

To ensure that the full range of issues related to the proposed action are addressed and all significant issues are identified, comments and suggestions are invited from all interested parties. Comments on the scope of alternatives and impacts to be considered are requested by August 3, 2000 and should be sent to: Rob Fellows, WSDOT Office of Urban Mobility, 401 Second Avenue South, Suite 300, Seattle, WA 98104-2887; fax number (206) 464-6084; or e-mail to translake@wsdot.wa.gov.

I. Background

A. 1998 Global Agreement

On June 25, 1998, the U.S. became the first signatory to the United Nations/Economic Commission for Europe (UN/ECE)¹ Agreement Concerning the Establishment of Global and Technical Regulations for Wheeled Vehicles, Equipment and Parts Which Can Be Fitted And/or Be Used On Wheeled Vehicles (the "1998 Global Agreement").² The 1998 Global Agreement provides for the establishment of global technical regulations regarding the safety, emissions, energy conservation and theft prevention of wheeled vehicles, equipment and parts.³ The Agreement contains procedures for establishing global technical regulations by either harmonizing existing regulations or developing a new regulation.

The establishment of global technical regulations is expected to lead to a significant degree of convergence in motor vehicle regulations at the regional and national levels. However, while in some instances the result may be the adoption of identical or substantially identical regulations at those levels, in other instances, the result may be regulations that differ but do not conflict with each other. While the Agreement obligates the Contracting Parties, under certain circumstances, to *consider* adopting the global technical regulations within their own jurisdictions, it does not obligate the Parties to adopt them. The Agreement recognizes that governments have the right to determine whether the global technical regulations established under the Agreement are suitable for their own particular safety needs. Those needs vary from country to country due to differences in the traffic environment, vehicle fleet composition, driver

¹ The Economic Commission for Europe was established by the United Nations (UN) in 1947 to help rebuild post-war Europe, develop economic activity and strengthen economic relations between European countries and between them and the other countries of the world.

² To aid persons unfamiliar with the 1998 Global Agreement in gaining an understanding of its provisions, this agency has summarized the key aspects in an appendix to this notice. The complete text of the Agreement may be found on the Internet at the following address: <http://www.unece.org/trans/main/wp29/wp29wgs/wp29gen/wp29glob.html>.

Historically, EPA has met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has been including its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, after March 31, 2010, EPA will discontinue the publication of this notice of availability of EPA comments in the **Federal Register**.
