

Funding and Tolling

*How much will the project cost?

- 4-Lane Alternative: \$1.7 – 2.0 billion
- 6-Lane Alternative: \$2.3 – 3.1 billion (includes design options)
*2005 CEVP Cost Estimate

What funding has been identified?

Funding Source	Amount
2003 State Nickel Package	\$52 million
2005 State Transportation Partnership Package	\$500 million
2005 Federal Funding	\$1 million
Future Electronic Tolls (estimated)	\$700 million
Total Identified	\$1.25 billion
Additional Funding Needs	\$0.45-1.85 billion*

*Includes 6-Lane Alternative design options cost

Will there be tolls?

- Yes, the project assumes that the bridge will be tolled. The tolls will be collected electronically in each direction so there will be no toll booths to drive through, and it will not cause travel delays.
- Tolls will vary by time of day with higher tolls during peak periods.
