 Major 31-50%
 Significant >50%

Decks and Sidewalks

Sq. Ft. of Sand/Debris:

Instructions

When filling out the **paper form**, record the bridge number found on the bridge or on the WSDOT Bridge List. Record the state route, milepost, region, area, names of inspection team members, and date. When filling out the **computer form**, type in the bridge number (example 82/139), press enter and state route, milepost, region and bridge size will be filled in automatically. *Please enter the **Area number**.*

Grates and Drains: Count and record the total number of bridge drains on the structure. Count and record the total number of blocked, plugged or covered bridge drains. Drains that are partially blocked are considered deficient. Catch basins with sediment buildup that exceeds the flow line elevation of the outlet pipe are considered deficient.

Decks and Sidewalks: Calculate and record the total square feet of sand and debris on the bridge deck and sidewalk.

Graffiti, moss, rust, etc.: Estimate and record the percent of bridge surfaces that are covered with graffiti, moss, rust, bird droppings or other surface dirt.
