

SR 502 CORRIDOR WIDENING

REDUCING CONGESTION • BUILDING FOR THE FUTURE

I-5 TO BATTLE GROUND

Why Consider Off-Corridor Alignments?

WSDOT is evaluating alternative options along the existing corridor and north and south of the corridor. The goal is to develop the alternative that best:

- Minimizes residential and business displacements
- Minimizes wetland impacts
- Maximizes safety and capacity
- Makes the most efficient use of available funding
