• Do current policies help prevent incompatible land use development in the airport influence area or do they tend to promote this development?

• To what extent have policies intended to prevent incompatible development been inadequate to the task? Why? Are there loopholes in the policies that allow compatibility goals to be circumvented?

• Are the policies clearly defined or are they open to a wide degree of interpretation?

• Do the current policies provide a good starting point for more detailed and thorough policies or do you need to start from nothing?
