SR 520 construction update: March 2015

Aberdeen pontoon construction activities

Tugboat West Point positions itself to tow Pontoon H from the casting basin. Pontoon H was the final pontoon to float out of the basin, at around 2:15 a.m. Photo taken: March 10.

The combination of tugboats Lynx and Lorelei give Pontoon H its final push into Grays Harbor. Photo taken: March 10.

West Approach Bridge North construction activities

Crews prepare to install a 9-foot-diameter casing on the West Approach Bridge North (WABN) project. Casings are the first step in building the permanent WABN structure. Photo taken: March 26.

Crews use excavators to clear the median to make room for a new westbound SR 520 off-ramp to Montlake Boulevard. Photo taken: March 14.

Crews remove sidewalks on the southeast intersection of Montlake Boulevard and East Lake Washington Boulevard. After removing the sidewalk, they will replace them with wider, smoother sidewalks that meet Americans with Disabilities Act (ADA) standards. Photo taken: March 24.

Crews carefully place a cap beam on top of two piles on Lake Washington to install a new finger pier off the temporary work bridge. Crews will use the finger piers to build the permanent West Approach Bridge North (WABN) structure. Photo taken: March 6.
