

Section 4(f) Evaluation Requirements

Describe each Section 4(f) resource that would be used by any alternative under consideration. The following information should be provided.

1. Please provide a detailed map or drawing of sufficient scale to identify the section 4(f) resources potentially impacted by your project and relationship of the project alternatives to the resource.
2. What is the size (acres or square feet) and location (maps or other exhibits such as photographs, sketches, etc.) of the affected Section 4(f) property?
3. What is the ownership (city, county, State, etc.) and type of Section 4(f) property (park, recreation, historic, etc.)?
4. What is the function of or what are the available activities on the property (ball playing, swimming, golfing, etc.)?
5. Describe and locate all existing and planned facilities on your map/sketch (ball diamonds, tennis courts, etc.). Are the parcels part of any existing or proposed State Recreation master Plan?
6. What is the access (pedestrian, vehicular) and usage (approximate number of users/visitors, etc.)?
7. Is there a relationship to other similarly used lands in the vicinity?
8. Are there any applicable clauses affecting the ownership, such as leases, easements, covenants, restrictions, or conditions, including forfeiture?
9. Are there any unusual characteristics of the Section 4(f) property (flooding problems, terrain conditions, or other features) that either reduce or enhance the value of all or part of the property?
10. Has the acquisition of land or any improvements to the resource used funds from the Land and Water Conservation Fund Act of 1965 (administered by the Recreation Conservation Office (RCO)? If so, a Section 6(f) evaluation is required.
