Work planning is an iterative process; as knowledge is gained about the project, changes to the work plan may be required. For example, identification of risk events may warrant changes to the project schedule and/or budget to mitigate the risk.

- Enterprise Project Structure (EPS) / Work Breakdown Structure (WBS)
- Project Cost Estimate / Budget Development
- Schedule Development
- Risk Planning
- Communication Plan
- Change Management Plan
- Quality Plan (QA/QC)
- Transition and Closure Plan

Project Management Plan
- Initiate and Align Worksheet
- Project Performance Baseline
- Scope
- Schedule
- Budget
- Risk Management Plan
- Change Management Plan
- Quality Plan
- Communications Plan
- Transition and Closure Plan
