

How To: Access WSDOT Learn Remotely

The following step-by-step guide outlines the process of accessing WSDOT Learn (Skillsoft) from remote systems, such as WSDOT laptops, personal laptops or desktop computers, and mobile devices.

Please Note: Connection via VPN or Citrix is not required to access content remotely.

■ If you're accessing **WSDOT Learn** from a **WSDOT laptop**:

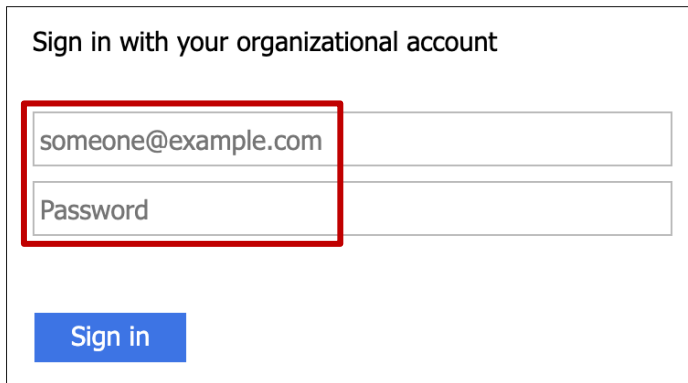

Step 1: Open [WSDOT Learn](#)

❖ **Note:** You will obtain access automatically via **Single Sign-On (SSO)**.

■ If you're accessing **WSDOT Learn** from a **personal laptop or desktop computer**:

Step 1: Open [WSDOT Learn](#)

Step 2: Enter your **WSDOT credentials** (username and password).

❖ **Note:** Your username is your **WSDOT email address**.

Step 3: Select **Sign In**.

■ If you're accessing **WSDOT Learn** from a **mobile device**:

Step 1: Download the free **Skillsoft Learning App**.

❖ Open your mobile device's app store (e.g. Apple or Google Play).

❖ Search for **Skillsoft Learning App** and select **Get**.

❖ Select **Install**.

- ❖ Once the installation is complete, select **Open**.

Step 2: The **Skillsoft Learning App** will open.

- ❖ Select **Sign In**.
- ❖ Under **Skillport Name**, enter “**WSDOT**” and then select **Next**.

The screenshot shows a sign-in form with the following elements:

- Label: Skillport Name
- Input field: WSDOT (highlighted with a red box)
- Domain dropdown: .skillport.com

- ❖ Select **Next** again.
- ❖ Enter your **WSDOT credentials** (**username** and **password**).
 - **Note:** Your username is your **WSDOT email address**.
- ❖ Select **Close**.

For more guidance, such as how to launch an audio book and how to view content from your mobile device, select [Getting Started with the Skillsoft Learning App](#).
