# Table of Contents

1 Executive Summary
   1.1 Overview
   1.2 Previous Survey Efforts
   1.3 2013 Key Findings
      1.3.1 System-wide Findings
      1.3.2 Corridor-level Findings
   1.4 Report Organization

2 System-wide Market Trends
   2.1 Washington State Ferries Market Summary
   2.2 Washington State Ferries Market Area
   2.3 Ferry Travel Characteristics
      2.3.1 Trip Purpose and Frequency
      2.3.2 Direction and Time of Day
      2.3.3 Round-Trip Patterns
   2.4 Access and Egress Travel Characteristics
      2.4.1 Access, Egress, and Boarding Modes
      2.4.2 Opportunities for Increasing Non-Vehicle Board Access and Egress
   2.5 Demographic Characteristics
      2.5.1 Income Findings
      2.5.2 Traveler Age
      2.5.3 Traveler Race/Ethnicity

3 Corridor Travel Markets
   3.1 General Characteristics of the Corridor Travel Markets
      3.1.1 Trip Frequency and Trip Type Differences among Corridors
      3.1.2 Aging Demographic, Trip Frequency and Purpose
   3.2 San Juan Islands Corridor Findings
      3.2.1 Aging Demographic, Trip Frequency and Purpose
      3.2.2 Access Patterns and Parking Trends
      3.2.3 Travel Patterns
   3.3 North Sound Corridor Findings (Whidbey Island)
      3.3.1 Aging Demographic, Trip Frequency and Purpose
      3.3.2 Access Patterns and Parking Trends
      3.3.3 Travel Patterns
   3.4 Central Sound Corridor Findings
      3.4.1 Aging Demographic, Trip Frequency and Purpose
      3.4.2 Access Patterns and Parking Trends
      3.4.3 Travel Patterns
3.5 South Sound Corridor Findings ............................................................................ 3-9
  3.5.1 Aging Demographic, Trip Frequency and Purpose ....................................... 3-9
  3.5.2 Access Patterns and Parking Trends ............................................................ 3-10
  3.5.3 Travel Patterns ............................................................................................ 3-10

4 San Juan Islands Corridor ............................................................................................. 4-1
  4.1 Description ......................................................................................................... 4-1
    4.1.1 Frequency of Travel .................................................................................. 4-2
    4.1.2 Round-Trip Patterns ................................................................................. 4-4
    4.1.3 Access, Egress, and Boarding Modes ....................................................... 4-5
    4.1.4 Other Travel Characteristics ................................................................... 4-13
    4.1.5 Demographic Characteristics ................................................................ 4-14
  4.2 Anacortes–San Juan Islands ................................................................................. 4-15
    4.2.1 Route Description .................................................................................... 4-15
    4.2.2 Trips by Purpose ....................................................................................... 4-15
    4.2.3 Frequency of Travel ................................................................................ 4-16
    4.2.4 Round-Trip Patterns ................................................................................. 4-17
    4.2.5 Access, Egress, and Boarding Modes ....................................................... 4-19
    4.2.6 Wait Time .................................................................................................. 4-24
    4.2.7 Parking ...................................................................................................... 4-24
    4.2.8 Weekday Travel Patterns—Eastbound ..................................................... 4-25
    4.2.9 Weekday Travel Patterns—Westbound ................................................... 4-31
    4.2.10 Saturday Travel Patterns—Eastbound ................................................... 4-37
    4.2.11 Saturday Travel Patterns—Westbound ................................................ 4-43
  4.3 Anacortes–Sidney, British Columbia .................................................................... 4-49
    4.3.1 Route Description .................................................................................... 4-49
    4.3.2 Trips by Purpose ....................................................................................... 4-49
    4.3.3 Frequency of Travel ................................................................................ 4-50
    4.3.4 Round-Trip Patterns ................................................................................. 4-51
    4.3.5 Access, Egress, and Boarding Modes ....................................................... 4-52
    4.3.6 Wait Time .................................................................................................. 4-58
    4.3.7 Parking ...................................................................................................... 4-58
    4.3.8 Weekday Travel Patterns—Eastbound ..................................................... 4-59
    4.3.9 Weekday Travel Patterns—Westbound ................................................... 4-63
    4.3.10 Saturday Travel Patterns—Eastbound ................................................... 4-67
    4.3.11 Saturday Travel Patterns—Westbound ................................................ 4-71

5 North Sound (Whidbey Island) Corridor ................................................................... 5-1
  5.1 Description ......................................................................................................... 5-1
    5.1.1 Frequency of Travel ................................................................................ 5-2
    5.1.2 Round-Trip Patterns ................................................................................ 5-4
    5.1.3 Access, Egress, and Boarding Modes ....................................................... 5-6
    5.1.4 Other Travel Characteristics ................................................................... 5-13
    5.1.5 Demographic Characteristics ................................................................ 5-15
5.2 Mukilteo–Clinton
5.2.1 Route Description
5.2.2 Trips by Purpose
5.2.3 Frequency of Travel
5.2.4 Round-Trip Patterns
5.2.5 Access, Egress, and Boarding Modes
5.2.6 Wait Time
5.2.7 Parking
5.2.8 Weekday PM Peak-Period Travel Patterns—Eastbound
5.2.9 Weekday PM Peak-Period Travel Patterns—Westbound
5.2.10 Saturday Travel Patterns—Eastbound
5.2.11 Saturday Travel Patterns—Westbound

5.3 Port Townsend–Coupeville
5.3.1 Route Description
5.3.2 Trips by Purpose
5.3.3 Frequency of Travel
5.3.4 Round-Trip Patterns
5.3.5 Access, Egress, and Boarding Modes
5.3.6 Wait Time
5.3.7 Parking
5.3.8 Weekday PM Peak-Period Travel Patterns—Eastbound
5.3.9 Weekday PM Peak-Period Travel Patterns—Westbound
5.3.10 Saturday Travel Patterns—Eastbound
5.3.11 Saturday Travel Patterns—Westbound

6 Central Sound Corridor
6.1 Description
6.1.1 Frequency of Travel
6.1.2 Round-Trip Patterns
6.1.3 Access, Egress, and Boarding Modes
6.1.4 Other Travel Characteristics
6.1.5 Demographic Characteristics
6.2 Seattle–Bainbridge Island
6.2.1 Route Description
6.2.2 Trips by Purpose
6.2.3 Frequency of Travel
6.2.4 Round-Trip Patterns
6.2.5 Access, Egress, and Boarding Modes
6.2.6 Wait Time
6.2.7 Parking
6.2.8 Weekday PM Peak Period Travel Patterns – Eastbound
6.2.9 Weekday PM Peak-Period Travel Patterns—Westbound
6.2.10 Saturday Travel Patterns—Eastbound
6.2.11 Saturday Travel Patterns—Westbound
6.3 Seattle–Bremerton ................................................................. 6-49
  6.3.1 Route Description ......................................................... 6-49
  6.3.2 Trips by Purpose .......................................................... 6-49
  6.3.3 Frequency of Travel .................................................... 6-50
  6.3.4 Round-Trip Patterns .................................................... 6-51
  6.3.5 Access, Egress, and Boarding Modes ......................... 6-53
  6.3.6 Wait Time .................................................................... 6-62
  6.3.7 Parking ......................................................................... 6-63
  6.3.8 Weekday PM Peak-Period Travel Patterns—Eastbound  6-64
  6.3.9 Weekday PM Peak-Period Travel Patterns—Westbound  6-67
  6.3.10 Saturday Travel Patterns—Eastbound ....................... 6-73
  6.3.11 Saturday Travel Patterns—Westbound ....................... 6-77

6.4 Edmonds–Kingston ........................................................... 6-81
  6.4.1 Route Description ......................................................... 6-81
  6.4.2 Trips by Purpose .......................................................... 6-81
  6.4.3 Frequency of Travel .................................................... 6-82
  6.4.4 Round-Trip Patterns .................................................... 6-83
  6.4.5 Access, Egress, and Boarding Modes ......................... 6-85
  6.4.6 Wait Time .................................................................... 6-91
  6.4.7 Parking ......................................................................... 6-92
  6.4.8 Weekday PM Peak-Period Travel Patterns—Eastbound  6-93
  6.4.9 Weekday PM Peak-Period Travel Patterns—Westbound  6-97
  6.4.10 Saturday Travel Patterns—Eastbound ....................... 6-101
  6.4.11 Saturday Travel Patterns—Westbound ....................... 6-105

7 South Sound Corridor .......................................................... 7-1
  7.1 Description ...................................................................... 7-1
    7.1.1 Frequency of Travel .................................................. 7-2
    7.1.2 Round-Trip Patterns .................................................. 7-4
    7.1.3 Access, Egress, and Boarding Modes ......................... 7-5
    7.1.4 Other Travel Characteristics ..................................... 7-12
    7.1.5 Demographic Characteristics .................................... 7-14
  7.2 Fauntleroy–Vashon .......................................................... 7-15
    7.2.1 Route Description ..................................................... 7-15
    7.2.2 Trips by Purpose ....................................................... 7-15
    7.2.3 Frequency of Travel .................................................. 7-16
    7.2.4 Round-Trip Patterns .................................................. 7-17
    7.2.5 Access, Egress, and Boarding Modes ......................... 7-19
    7.2.6 Wait Time .................................................................... 7-25
    7.2.7 Parking ......................................................................... 7-26
    7.2.8 Weekday PM Peak-Period Travel Patterns—Eastbound  7-27
    7.2.9 Weekday PM Peak-Period Travel Patterns—Westbound  7-31
    7.2.10 Saturday Travel Patterns—Eastbound ....................... 7-35
    7.2.11 Saturday Travel Patterns—Westbound ....................... 7-39
7.3 Fauntleroy–Southworth

7.3.1 Route Description

7.3.2 Trips by Purpose

7.3.3 Frequency of Travel

7.3.4 Round-Trip Patterns

7.3.5 Access, Egress, and Boarding Modes

7.3.6 Wait Time

7.3.7 Parking

7.3.8 Weekday PM Peak-Period Travel Patterns—Eastbound

7.3.9 Weekday PM Peak-Period Travel Patterns—Westbound

7.3.10 Saturday Travel Patterns—Eastbound

7.3.11 Saturday Travel Patterns—Westbound

7.4 Southworth–Vashon

7.4.1 Route Description

7.4.2 Trips by Purpose

7.4.3 Frequency of Travel

7.4.4 Round-Trip Patterns

7.4.5 Access, Egress, and Boarding Modes

7.4.6 Wait Time

7.4.7 Parking

7.4.8 Weekday PM Peak-Period Travel Patterns—Eastbound

7.4.9 Weekday PM Peak-Period Travel Patterns—Westbound

7.4.10 Saturday Travel Patterns—Eastbound

7.4.11 Saturday Travel Patterns—Westbound

7.5 Point Defiance–Tahlequah

7.5.1 Route Description

7.5.2 Trips by Purpose

7.5.3 Frequency of Travel

7.5.4 Round-Trip Patterns

7.5.5 Access, Egress, and Boarding Modes

7.5.6 Wait Time

7.5.7 Parking

7.5.8 Weekday PM Peak-Period Travel Patterns—Southbound

7.5.9 Weekday PM Peak-Period Travel Patterns—Northbound

7.5.10 Saturday Travel Patterns—Southbound

7.5.11 Saturday Travel Patterns—Northbound

8 Survey Methods and Results

8.1 Survey Design, Sampling, and Administration

8.2 Survey Responses and Data Cleaning
8.2.2 Response and Usable Rates ................................................................. 8-4
8.3 Survey Expansion ................................................................................. 8-4
  8.3.1 Survey Expansion Methodology ....................................................... 8-5
  8.3.2 Trip Table Expansion Method ......................................................... 8-6
8.4 Survey Precision .................................................................................. 8-7
  8.4.1 Technical Discussion ....................................................................... 8-7
  8.4.2 Route Level Precision Estimates ..................................................... 8-8
  8.4.3 Sample Share of Survey Population ................................................ 8-9
8.5 Survey Data Files and Geocoding ......................................................... 8-9
  8.5.1 Geocoding Process and GIS Application .......................................... 8-9
  8.5.2 WSF TAZ System and District Schemes .......................................... 8-9
  8.5.3 Using Geocoded Trip Origin and Destination Information ............... 8-12
8.6 Summary Survey Results ....................................................................... 8-12
8.7 Survey Conclusions and Lessons Learned ............................................ 8-12
  8.7.1 Survey Design ................................................................................. 8-13
  8.7.2 Survey Field Collection .................................................................... 8-13
  8.7.3 Alternative Approaches for the next Origin/Destination Survey
      (Year 2020) .......................................................................................... 8-14

Figures

Figure 1-1. Corridor travel markets for the Washington State Ferries system .... 1-1
Figure 2-1. System-wide distribution of ferry rider home locations by county,
    weekday and Saturday survey periods (2013) .............................................. 2-6
Figure 2-2. System-wide rider home locations, weekday survey period ............ 2-7
Figure 2-3. System-wide rider home locations, Saturday survey period ............ 2-8
Figure 2-4. System-wide round-trip patterns by day, weekday and Saturday survey
    periods (2006 and 2013) ............................................................................ 2-12
