

Highway & Transit Travel Times — PM Peak Hour

NOTES:

- Highway travel times do not include arterial travel times, except for Ballard and West Seattle.
- For some corridors, only peak direction is shown because of limited data reported in the WSDOT Corridor Capacity Report.
- Downtown Seattle is I-5 at University Street for highway travel times, University Street Station for the DSTT, and Madison Street Station for the new transit tunnel.
- Transit travel times do not include wait times and station access times.
- BRT & LRT travel times are for representative projects.
