Please join us for the next Innovation Exchange Webinar on Innovative Financing. This webinar is intended for counties, tribal, and local professionals looking for innovative financial strategies to fund transportation projects.

**Description**

The purpose of this webinar is to provide locals, counties and tribes with tools to expand capacity to design and implement alternative financial strategies for delivering transportation infrastructure. In this time of declining revenues and increasing fiscal requirements, it is imperative that the transportation industry be equipped with the knowledge and tools needed to evaluate project finance, revenue, and procurement options at the right time in the program delivery process. By being knowledgeable about a wide range of options, both traditional and non-traditional, counties, tribes and local highway agencies can better ensure that critical projects are adequately funded, delivered on schedule, and that continuing needs for the preservation and efficient operation of the system are taken into account.

**Date & Time**

Thursday, August 2, 2018  10:00 – 11:30 AM Pacific Standard Time

Wouldn’t it be nice to have more money?
If you are flush with money; if you don’t need additional project funding; if you already know where to get more revenue; if words like TIFIA and GARVEE easily roll from your tongue; then this webinar is not for you.

If you are like the remaining 99.9% who struggle to find funds, then here are answers and solutions for you. Come learn that options exist to fulfill your fiscal needs. Find out how Innovative Financing Methods can work for you to supplement your budgets. Be a leader in your agency to leverage your money with other sources, and deliver your transportation projects ahead of schedule.

Are you ready to step into the future of Innovative Financing? Make the choice to get involved and attend this webinar. Join us on August 2, 2018.
