Driver Tips for Fourth of July Weekend 2014: US 2, I-90, I-5

■ Peak Independence Day Routes. Find the best time to travel on I-5, I-90 Snoqualmie Pass, US 2, and I-5 near the U.S. Canadian border.

[Fourth of July 2014 News Release](#)

State highways across Washington will see typical heavy holiday weekend traffic. Longer-than typical wait times at [ferry docks](#) and Canadian border crossings are also expected most of the holiday weekend.

WSDOT crews work hard to ensure that travelers reach their destination safely and advise drivers to plan ahead to save time and frustration. Travel times are significantly lighter Wednesday and Thursday morning and on Tuesday.

Current traffic incidents or adverse weather can result in traffic congestion outside the hours shown.

[Fourth of July 2014 News Release](#)

What do the colors mean for drivers?

Traffic analysts looked at how many cars were on the road the past two Fourth of July weekends that started on a Friday. The vertical axis shows how many cars are projected to be on the road for each hour (shown on the horizontal axis). As the graphs turn from green to yellow, drivers can expect some congestion. At the hours shown as red, traffic analysts predict travel will reach capacity for that stretch of roadway. Once a roadway reaches capacity, any small incident can cause significant backups.

What about the black line?

The black line running from left to right show typical summer traffic. This gives drivers more information on how the Independence Day 2014 holiday weekend travel may relate to a typical summer weekend.

Check the graphs below to find the best times to travel on I-5 north of Olympia through Tacoma.

I-5 Northbound Thursday, July 3 Typical Traffic Volume Olympia to Tacoma
