SR 520 construction update: June 2016

Floating Bridge and Landings construction activities

A tugboat pushes pontoons A and B toward the east navigation channel of SR 520 en route to the west side staging area as part of decommissioning of the old floating bridge. Photo taken: June 28.

West Approach Bridge North construction activities

Crews install a pile for the temporary work bridge that will be used to off-load demolition debris of the westbound SR 520 off-ramp to Lake Washington Boulevard East and the R.H. Thomson "Ramps to Nowhere." Photo taken: June 14.

As of June 2016, all permanent bridge columns east of the temporary work bridge had been installed. Photo taken: June 27.

A crew member welds a steel pile to a girder for the temporary work bridge that will be used to off-load demolition debris from the westbound SR 520 off-ramp to Lake Washington Boulevard East and the R. H. Thomson "Ramps to Nowhere." Photo taken: June 14.

In order to prevent soils from encroaching onto the SR 520 mainline, crews install steel supports for a retaining wall that will extend from the 24th Avenue East overpass to Montlake Boulevard. Photo taken: June 16.
