Declaration: The following items have been purchased in response to an emergency as outlined in RCW 39.26.130.

Item No.	Part Number / Commodity Code	Description (or attach copy of the WSDOT purchase order)	Quantity	Unit of Issue	Unit Price	Extended Cost
1		Repair Stress Crack in Hull of the M/V Sanpoil (Estimate Only)	1	lot	125,000.00	125,000.00
		Hull Contractor: Dakota Creek Industries, Inc. PO Box 218 Anacortes, WA 98221-0218 Fed Tax ID: 91-0940429				
Total						\$125,000.00

Justification (see attached instructions):

On January 25, 2019 a stress fracture, leaking a small amount of water was discovered in the hull of the vessel M/V Sanpoil. Upon inspection by WSDOT personnel, a long crack approximately 1.5" in length was discovered. WSDOT self-reported this issue to the U.S. Coast Guard. The U.S. Coast Guard mandated that a permanent repair be completed as soon as possible.

The M/V Sanpoil is currently out of service until the repair is completed and approved by the U.S. Coast Guard.

The contractor, Dakota Creek Industries, Inc., will weld and reinforce the area of the fracture. The U.S. Coast Guard is requiring the repair to be completed as soon as possible and will not allow operation of the ferry, effectively closing SR 21 at MP 106.65.
